# Peace Terms Made By Russia Harder Than Former Ones

By EDWARD W. BEATTIE, JR.

British United Press. Exclusive Cable to The Edmonton Bulletin.  
HELSINKI, Finland, March 8.—Finland is prepared to fight to a finish rather than accept peace terms dictated by Russia, it was indicated today. Finns looked to their Scandinavian neighbors and to the Allies to give them the aid which would enable them to hold off the Red army.

## INTERFERENCE NOW CHARGED IN WAR WORK

### Man "High In the Government" Attacked By Ontario M.L.A.

TORONTO, March 8.—A. W. Robb, independent Liberal member of the Ontario legislature and Liberal candidate in the federal riding of Toronto-Trinity, declared last night that "a man high in the government of Canada" was interfering with war work.  
Mr. Robb, speaking at a meeting of the Toronto Citizens' Association, declared that the man in question was interfering with war work in a number of ways, including the delay in the delivery of aircraft, the delay in the delivery of munitions, and the delay in the delivery of foodstuffs.

Mr. Robb, speaking at a meeting of the Toronto Citizens' Association, declared that the man in question was interfering with war work in a number of ways, including the delay in the delivery of aircraft, the delay in the delivery of munitions, and the delay in the delivery of foodstuffs.

## OFFICER IS CONFERRING ON AIR PLAN

### Interviews Premier On Property Available For Schools

LT.-COL. GEORGE GIBSON, of Toronto, real estate adviser to the department of national defense, arrived in Edmonton this morning to consult with Premier Aherhart about properties that might be available for training schools.

Col. Gibson said that he would not make any statement on the report of buildings he was looking for until he had first seen the premier, with whom he had a conference early Friday afternoon.

Pointing out that the accommodation now being sought was not of a temporary nature as was used for the militia, but was such that could be used for the duration of the war, Col. Gibson said he was empowered to conclude arrangements for either land or buildings that might be needed by the national defense department.

Buildings, he indicated, might be either leased or bought. He said that he had received co-operation from the provincial government in the search for properties that might be available for training schools.

Col. Gibson, who is accompanied by members of his staff, is in the department of national defense, as at the Macdonald. He will remain here several days.

## Blanket Of Gas Hanging In Air Near Wild Well

CALGARY, March 8.—A heavy blanket of gas hung over a wide area surrounding the wild gas of the Standard Oil of British Columbia well on the Stovell property, near the town of Patricia, east of Calgary, today.  
John Galloway, manager of the Standard Company at Calgary, said there was gas danger of explosion and fire as the well continued to blow gas, uncontrolled, with terrific pressure.  
All wreckage, occasioned when the well suddenly blew out, was blown away and collapsed the derrick Wednesday, has been removed.

FRIDAY, MARCH 8, 1940.

### First Things First

If we don't win this war it will not make any difference what we do about it. We can't win it by the use of industrial policy. We should in that event either take orders from Berlin in all these matters, or have to stop arguing about them and join with the people of the United States in fighting for the right to govern ourselves in a totalitarian world. It is the point Canadians cannot afford to forget just now.

There are many other questions of public importance, but none that is of any relative importance at all compared with the question of whether we are to emerge from this struggle as winners or losers. If we win we can set economic questions and social problems in our own way. If we lose they will be settled for us immediately, or we will have something else to think about. One thing at a time is a good rule, in any circumstances. In the present circumstances there is only one thing that counts, for upon it all other issues hinge.

### How Many Men?

Premier Menzies took his critics by surprise by announcing that his Government plans to send 50,000 Australian troops overseas—if required, of course.

Prime Minister King could say the same thing without creating any surprise at all among Canadians who have rightly sensed the responsibility Canada assumed when its parliament decided to stand beside Britain and France in the fight to smash Hitlerism.

For all anyone knows each Dominion may have more men than that number of men overseas before the struggle ends. How many either will send and depend upon how many are required; and how many are required will be decided by the Dominion Governments in consultation with the British authorities.

In the former we Canada send approximately as many men in the first contingent as has been sent since this war began. There was no declaration then that Canada would send half a million men, but it sent far more than that as the developments showed them to be needed. Our position now is essentially the same. It was after the first contingent had been sent in the former war. The future will determine, as it did then, how many are to follow.

Canada, like Australia, has undertaken to see the thing through, without setting any limit on the number of men. Under political pressure Premier Menzies has named 50,000 as Australia's probable contribution in man-power. The figures are as likely to be found to be under the mark as over it two or three years hence—whether for Australia or for Canada.

### Hitler Would Laugh at This One

Lieut.-Col. Drew, in the course of his western speeches on behalf of a hedge-podge cabinet, worked out the wholly original and certainly interesting theory that Prime Minister King is responsible for "Munich".

Messrs. Chamberlain and Daladier, he said, had to consent to the dismemberment of Czechoslovakia because the British air force had not been brought up to a strength necessary to defy the Fuehrer. And that weakness, according to Col. Drew, was caused by the refusal of Mr. King in 1937 to allow the British Government to set up air-training schools in Canada.

Two mistakes need correcting, though they are not important in the argument. The suggestion did not come from London in 1937, but in 1938. And there was no "refusal" involved because no such request was made, only an inquiry as to how a proposal of the kind would be viewed at Ottawa.

Col. Drew evidently thinks westerners do not read Hansard. If he reads it himself he must have come across this passage from the debates on the estimates at the session of a year ago:

DR. MANION: In the British Isles they speak of pilots in such huge numbers that fifty seems to be merely a flea-bite. I think that opportunity might well be broadened out to give pilot training to a very much larger number of the British Empire. I declare it. ... I suggest that we co-operate with the British Government to the utmost possible degree in that regard. ... I might say that after hearing the

two speeches of the Prime Minister and the speech of the Minister of Justice that was their attitude. I believe that the attitude of the Government is that we must co-operate with Great Britain to the fullest possible extent short of conscripting men to send them overseas. I take the same attitude myself. ... and I think much more can be done than is indicated by training only fifty pilots.

MR. IAN MACKENZIE: We have on more than one occasion in the last few months offered the utmost co-operation to the British Government and the number was determined by this Government but by Great Britain.

DR. MANION: They determined on the fifty.

MR. MACKENZIE: Yes.

DR. MANION: Then I make no further comment on that.

What Col. Drew has been trying to tell his western audiences was that Chamberlain and Daladier could have read the riot act to Hitler at Munich if there had been 50 British airmen training, or about to start training, in Canada. The man should talk sense, even in the west.

### Editorial Notes

Referring to a statement that Canadian troops were sent overseas with rifles of an old pattern, Hon. C. D. Howe replies that military science has produced no better rifle than the Lee Enfield. Canada had large stocks of this make on hand, and it is with these Canada's soldiers have been armed.

Last week Germany was reported to have offered to guarantee Rumania against aggression, in return for all the oil that could be produced from its fields. Rumania now reports that Germany is getting only half the oil agreed upon in the barter arrangement made two months ago. The Rumanian Government evidently thinks a Nazi promise would be as dangerous as Nazi threats can be.

The secretary of the American-Russian chamber of commerce said at London that Moscow's food supply is "worse now than at any time since the famine of 1933." Whether the cause is that Russia's notoriously poor railway system cannot deliver the food, or that the Russian farmers refuse to produce without profit, the outlook for Germany getting supplies there is not good.

Mr. Sumner Welles is not going to Moscow in his swing around Europe to find out what are the war aims of the fighting countries. He does not need to. The Soviet aims have been written for all the world to see in the blood of a small nation who asked for nothing but to be left alone to earn a living by the sweat of their brows and develop as they could the little patch of earth upon which their race has dwelt for centuries.

### Fifty Years Ago

From the Files of the Edmonton Bulletin

Sir John agreed to appoint a committee to investigate the charges against General Middleton.

The bill to incorporate the Orange Order passed the House of Commons.

Senator Abbott said the government did not intend to make any further investigation of the sinking of the Arcturion.

### Forty Years Ago

E. E. Stoner, J. M. Swiggart and A. Duffery arrived from the north by dog train last night. J. A. Macrae of the Indian department will leave Edmonton today to pay treaty money to the Beaver Indians at Fort Resolution.

The Semlin government of British Columbia was defeated on the redistribution bill.

### Thirty Years Ago

Philadelphia: A sympathetic strike has been called to help the striking carmen. One hundred thousand men have responded.

The city council will be presented with a petition for a subway or overhead bridge crossing the R.R. and G.T.P. tracks at seventh street.

A west and rangers' association has been organized.

### Twenty Years Ago

The legislature voted down a motion by Dr. Stewart of the Liberal party to the right of Hon. Wilfred Grier to sit in the house.

Winnipeg: The provincial government will pay a million dollars for a new provincial housing scheme.

Canadian silver is at a 20 per cent discount in United States cities.

### Ten Years Ago

Creation of five new seats and the abolition of two, or a net increase of three, forms a summary of the work of the special committee on redistribution appointed at the last session of the legislature. Edmonton, Calgary, Peace River, Clover Bar and Drumheller received the new members, while the proposal is to abolish two ridings in the southern part of the province.

With the present year's building permits totalling nearly a million dollars, City Architect Martland estimates the total for the year will run to \$4,000,000, possibly \$4,500,000.

Winnipeg: Police claimed with Communists who attempted to hold a parade in the downtown area of the city.

With banners waving, and shouting "Long live the revolution," 500 Edmonton unemployed marched to the provincial buildings Thursday afternoon.

### The Passing Show

By J. K. COWTER

The Soviet Institute of Experimental Medicine announces a successful method of dealing with carbon-monoxide poisoning. The operation takes the startling form of drawing the blood from the sufferer's body, "cleaning it" as one might call crankcase oil, and re-injecting it into the body by the ordinary transfusion. Carbon has an affinity for oxygen. Carbon monoxide binds the bloodstream becomes clogged with blood by absorbing oxygen from the blood. The new method when fully developed will save many a life.

A DERT TO SOVIET SCIENCE  
The bloodstream becomes clogged with blood by absorbing oxygen from the blood. The new method when fully developed will save many a life.

Treated on a dog the other day, the operation was carried out in less than five minutes. The process carries to completion, a method originally conceived by the famous Russian physiologist Mikhailovskii, which was interrupted by the war and the revolution. Russia has spilled lots of blood; now Red Russia plans a way to save some.

Russia has done many services. She obtained for the Allies in the Great War the secret German signal codes. That was a very great service. Naval codes are kept before lead covers to ensure that they will sink. It happened in 1914 soon after the German raiding ships flashed to all German ships that were under the REWARD of age: "A/N S/B Born" to do at CHIVALRY.

After the Russians had taken possession of the Merganser, an officer, a man of wide maritime tradition of the sea, ordered the bodies of the Germans around the vessel to be gathered for disposal. The bodies were taken to the dredge that brought up the body of the officer who had fallen overboard found, clapped on a sack, and a diver sent down found the vessel's code book. A diver sent down found the vessel's code book. A diver sent down found the vessel's code book.

After the Russians had taken possession of the Merganser, an officer, a man of wide maritime tradition of the sea, ordered the bodies of the Germans around the vessel to be gathered for disposal. The bodies were taken to the dredge that brought up the body of the officer who had fallen overboard found, clapped on a sack, and a diver sent down found the vessel's code book. A diver sent down found the vessel's code book. A diver sent down found the vessel's code book.

Thereafter every message sent from Germany to Germany was known at Whitehall, no matter how often the codes were changed.

But to get back to the question of modern medical research. Entirely new avenues of knowledge have been opened up in the last quarter century. Medicine has become increasingly a matter for the specialist. But under our present system of fee-for-service-rendered, the ordinary poor patient cannot

NEW ADVANCES hope to command the service of a specialist. A recent stay in hospital was an eye-opener to me of the cost of medical service. All I'd ever spent on doctors' bills—during an active career—had been \$1.50 for a doctor's snipped in weight-lifting years ago. Now I know it costs \$3 every time a doctor asks how you're getting on, and \$10 for a specialist.

How do sick people of the irregular working class, in frequent need of medical attention, manage to get it? They go to the class as the legal bill my friend "Gerry" McGee once sent me, in which the last item reads: "Dr. McGee, for services rendered, including your cheque on account \$1.00; or the other lawyer tells of which read "To the calling you up on the phone. Not in 50 cents."

It is a remedy made up of state medicine, in which healthy men like me pay monthly for others, and the rich help to keep the poor in the hospital. Medical science is a true cause it may threaten the high fees for the top-notchers, though surely high skill will always command a high fee. But the new young men would be helped as well as the ailing poor.

Dr. Hugh Cabot, famous surgeon of the Mayo Clinic, in a signed article in the American Magazine, charges that 200,000 persons die needlessly in United States each year, while countless thousands struggle along in agony state as a result of the outmoded fee system of private medical practice. He pleads for government control of the system of private practice.

"SHORT-NIGHTED LABOR UNION" annual fee basis. "Most of the day comes from the system of private practice."

Dr. Cabot writes, "with a separate, sometimes staggering fee for each service your doctor prescribes. This is the system which is keeping home in droves while the doctors are wondering how they pay their rent. It is this system which organizes the medical profession against the man with the reactionary tactics of a short-sighted labor union."

"As a doctor I am appalled by the inadequate, inferior, and terrible expense care people are receiving today. Two hundred thousand people are dying needlessly in this country every year. How many of these are dying because of the system of medicine which is keeping them from the doctors who are wondering how they pay their rent. It is this system which organizes the medical profession against the man with the reactionary tactics of a short-sighted labor union."

"The answer, it seems to me, is for the doctors to organize so as to put their services within the reach of everyday budgets."

Dr. Cabot, in a signed article of the Journal of the American Medical Association, insists that the old time doc with his black bag can treat successfully 99 per cent of the ailments of the people. The rest of the 1 per cent is a beguiling and dangerous fiction. It is the development of the modern world that everyone is some sort of a specialist. The old time doc is as essential as wheels on an automobile.

Thousands of doctors are barely earning a living today, but no one argues that there are too many doctors. The spread of group practice medicine has made them even more numerous, and health standards by extending medical care to people who don't get it today.

There is a danger of a step too far in proposing that a prepayment group cannot, for some

### Current Comment

About Finland

Mr. Bertrand Russell who whatever else he is, is not one of those tools of the capitalist system we hear about so much, has given the world his views on the war in Finland which must ring strangely in the ears of those who avow their belief that Russia is today defending herself against capitalist aggression. He declares that "since Thermopylae and Salamis there has been nothing so amazing and so magnificent as the Finnish resistance."

Says the Manchester Guardian in comment upon his judgment:

"The Finns, we are told, are bankers who have driven the poor into Russia where they have found in Stalin their Abraham Lincoln; they are Jingoists who defeated all Russia's patient efforts for peace. ... Mr. Russell is sadly mistaken in the latter truth, the latter truth is that the Finns are not bankers or for hypocritical imperialists, or of any romantic sentimentalism about the battlefield. They will not draw a good Marxian moral from this crude outburst and allow it even the most highly developed mind cannot escape by its own light from the superstitions of the bourgeois conscience—Winnipeg Free Press."

### Political Fantasy

The nation-wide broadcast on Wednesday evening by H. H. Stevens, who is apparently Dr. Manion's first lieutenant, affords additional evidence that no case, worthy of serious attention, by those who are doing so well to see that Canada makes her maximum effort in the war, has been made for substituting Manion, Stevens, et al, for the men who are already on the job. That Dr. Manion should have failed in establishing even a prima facie case was not conclusive, for while he has a certain facility for impugning his contemporaries, he is unable to present a coherent statement of a complicated case is generally recognized. But Mr. Stevens in an able and skillful presentation of a political case with great effectiveness and in his hands a weak case can be made to appear in the garb of plausibility. It is to be hoped that the argument that Dr. Manion was listened to by those who are doing so well to see that Canada makes her maximum effort in the war, has been made for substituting Manion, Stevens, et al, for the men who are already on the job. That Dr. Manion should have failed in establishing even a prima facie case was not conclusive, for while he has a certain facility for impugning his contemporaries, he is unable to present a coherent statement of a complicated case is generally recognized. But Mr. Stevens in an able and skillful presentation of a political case with great effectiveness and in his hands a weak case can be made to appear in the garb of plausibility. It is to be hoped that the argument that Dr. Manion was listened to by those who are doing so well to see that Canada makes her maximum effort in the war, has been made for substituting Manion, Stevens, et al, for the men who are already on the job. That Dr. Manion should have failed in establishing even a prima facie case was not conclusive, for while he has a certain facility for impugning his contemporaries, he is unable to present a coherent statement of a complicated case is generally recognized. But Mr. Stevens in an able and skillful presentation of a political case with great effectiveness and in his hands a weak case can be made to appear in the garb of plausibility. ## CRERAR FLAYS C.C.F. PARTY'S STAND ON WAR

Peace-time Program For All Parties Depends On Victory

BRANDON, Man., March 8.—Hon. T. A. Crerar, federal minister of mines and resources, in a broadcast address last night attacked the Co-operative Commonwealth Federation's attitude toward Canada's war effort and said the peace-time program of the C.C.F. as all Canadian parties depends on victory.

In a 15-minute speech broadcast over a network of Manitoba stations, Mr. Crerar said that in his recent visit to England and France he gained the conviction that "nothing is more certain than that victory is the only way to peace."

Canada was inclined to take it for granted that the war would be won upon relatively easy terms but in the allied countries even it was understood the war would be long, desperate and uncertain. The people under the hood of a conqueror more cruel, more blood-thirsty, more despotic than the world has ever known, George Khan.

He appealed for realization that Canada may prove the decisive factor in an allied victory and that a halfhearted war effort would mean the loss of "food, warmth, security."

"This is a fact that has occurred the C.C.F. Members of that party had found reasons for selling the people the war was not Canada's main business. They behaved as if it would make no difference to Canada whether Germany wins the war or not. They opposed Canada sending men overseas because it was 'desperately necessary.' They kept insisting that there would be compensation when the war was over, but they thought that somebody else should fight our battles for us while we sat at home and ate and for somebody else to win the war for us," he said. "What is the C.C.F. campaign means."

"Why do they say these things unless they think that somebody else should fight our battles for us while we sit at home and eat and for somebody else to win the war for us," he said. "What is the C.C.F. campaign means."

"Why do they say these things unless they think that somebody else should fight our battles for us while we sit at home and eat and for somebody else to win the war for us," he said. "What is the C.C.F. campaign means."

## That, Ladies and Gents, Is a Sun-bonnet

No exception to the rule that tongsbirds fly south in winter is comely opera star Lily Pons. She's pictured sunning herself at Miami Beach, Fla. That thing on her head? Oh, just a sun-bonnet.

## Three "Sleeping Beauties" Of Seas Drowse In Dock Under Inviolable Guard

FRENCH NAVY HELPS BREAK NAZI THREAT

Sinks 12 Subs, Captures 18,000 Tons Of Ships From Germans

PARIS, March 8.—The French navy has sunk 12 German submarines, captured 18,000 tons of German shipping and with the British navy has broken the back of Germany's threat to block the sea lanes, navy minister Cécile Leclercq declared yesterday.

"British sources have reported that the two allied navies have destroyed a total of about 50 submarines."

In a survey of the first six months of the war, Camillepich asserted that "allied naval supremacy is better than any other factor in the war."

The French sailor has given blow for blow to the Germans," Camillepich said. "For each cargo boat lost by our sea and air patrols, we have almost matched that rate with a German submarine. The same is true just brought to a dozen the number of Nazi submarines lost."

The six-month, 12,000-ton destroyer already had been credited with sinking a submarine and capturing 18,000 tons of ships.

France's commercial fleet has lost less than two per cent since the German action, the minister said. The British fleet has lost 15 per cent of 7,500 tons, but not one merchant ship has been destroyed, Camillepich said.

France Wednesday floated a new warship, the 1,200-ton battleship Jean Bart, the minister announced. The range of her big guns will be more than 25 miles.

Camillepich contended that the German war against shipping was waiting, supporting the war with the sea that 60 Allied and neutral ships were sunk in December, 60 in January and only 48 in February, of which 27 were neutral.

DOMINION HAS CHANCE TO GET BARLEY MARKET

WINNIPEG, March 8.—Peter Seaton, of Toronto, president of the Canadian Malting Company Ltd. export department, yesterday told the Dominion Government's Barley and Linseed Flax committee that Canadian barley growers had a splendid opportunity to gain a large market in Britain during the war.

British brewers would probably have to drastically curtail their normal purchases of California barley because of shortage of United States exchange, Mr. Seaton said.

In making parchment, high grade flax is run over rollers twice in Britain, he said. The rollers are made of steel and the surface is a gelatinous trans-lucent finish.

Elizabeth Sails To Create Space For Other Ships

LONDON, March 8.—Officials stated yesterday the Queen Elizabeth left her Clyde berth and sailed for New York to make room for other ships. It is explained every berth is needed to the stream of shipping which enters ports of the United Kingdom.

## NAZI GENERAL INSPECTS NEW BORDER ARMY

Switzerland Strong to Defend Rhine As Precaution

BASEL, Switzerland, March 8.—Nazi newspapers reported yesterday that Colonel-General Walther von Brauchitsch has inspected newly-arrived troops at Grenchen on the German side of the Rhine near Basel.

The German commander's inspection tour followed a week of troop movements north of the Swiss Rhine border, the newspaper said.

The Swiss general staff has issued a precautionary measure has issued an order bringing troops on the first of the Winterthur line of fortifications along the Rhine to full strength.

Along the German bank of the Rhine from Basel to Lake Constance regular Reichswehr troops have replaced the semi-military border patrol which has been stationed there since September.

Five regular army divisions, foreign military observers declare, are now concentrated in the Winterthur area east of the Rhine and north of the Swiss border.

Swiss farmers and laborers of Basel who work on the German side of the frontier have been warned to keep their hands off the new troops.

Only yesterday, an official of the French line allowed himself to get into a fine tizzy over some published statistics comparing Elizabeth and the Normandie with the French flagship getting none the best of it.

"Why," he fumed, "those figures are not true. The Normandie is but a foot, one single foot, shorter than Elizabeth."

There was a slight pause for insertion of figures.

Elizabeth—Length 1,000 feet, Normandie—Length 1,020 feet.

The inside isn't pretty. Paintings—a good part of the new Normandie are covered, furnished, and it smells.

## Canadian Troops Carry On Extensive Manoeuvres At Night In Aldershot

By SAM ROBERTSON Canadian Press Staff Writer

ALDERSHOT, March 8.—British night air raid precautions black out many activities but not the training program of the Canadian First Division.

When darkness blankets this military command units push out to practice the manoeuvres they will carry out in war zones under cover of night. An infantry battalion goes out on patrol, engineers throw bridges across rivers, a supply column grope from an imaginary army ammunition dump to firing trenches.

MEN THRIVE ON IT

Accompanied Toronto's 48th Highlanders last night on a patrol exercise that had the reality and thrill of a night in No Man's Land. The Toronto unit was out at full strength crawling through brush and weeds, and across ditches and hills.

With feline stealth the Highlanders wriggled along on their stomachs or back-crawled on their hands and knees reconnoitering enemy trenches, capturing outposts, seeking information on the enemy's strength.

The enemy of course were men of the 48th. But they were posted secretly and it was up to the patrol to find them in the baffling black-out.

Lieut-Colonel E. W. Haldenby is giving the 48th a heavy dose of night work and the men love it. It may sound like a glorified game of hide-and-seek, but there is competition in it and it is training that teaches a man how to keep his skin whole in combat.

The present phase of activity on the Western Front is largely night work and reconnoitering. Colonel Haldenby said, "Our Canadian soldiers must be able to do it."

So essential is the need for stealth in such work that some of the Highlanders snaked only 500 yards in the two hours the exercise lasted.

Then they swung home behind their pipes to a hot meal and welcome bunk.

Americas Protest British Sinking Of Nazi Steamer

WASHINGTON, March 8.—Ambassador George B. Hodges said that 15 American republics had agreed to join Brazil in a protest against the sinking of the Brazilian freighter Wakana off the coast of Brazil last month.

The republics are Argentina, United States, Colombia, Chile, Peru, Guatemala, Ecuador, Honduras, Haiti, Nicaragua, Cuba, Bolivia, Paraguay, Uruguay and the Dominican Republic.

Although men, many thousands of years ago, hammered meteoric iron into tools and weapons, it was only a little more than 100 years ago that scientists admitted there was such a thing as a meteorite.

Americas Protest British Sinking Of Nazi Steamer

WASHINGTON, March 8.—Ambassador George B. Hodges said that 15 American republics had agreed to join Brazil in a protest against the sinking of the Brazilian freighter Wakana off the coast of Brazil last month.

The republics are Argentina, United States, Colombia, Chile, Peru, Guatemala, Ecuador, Honduras, Haiti, Nicaragua, Cuba, Bolivia, Paraguay, Uruguay and the Dominican Republic.

Although men, many thousands of years ago, hammered meteoric iron into tools and weapons, it was only a little more than 100 years ago that scientists admitted there was such a thing as a meteorite.

With feline stealth the Highlanders wriggled along on their stomachs or back-crawled on their hands and knees reconnoitering enemy trenches, capturing outposts, seeking information on the enemy's strength.

## U. S. ADMIRAL REBUKED FOR KING'S GIFT

WASHINGTON, March 8.—The United States House of Representatives was told yesterday that Admiral James O. Richardson's acceptance of an autographed photograph of King George VI was "grossly indiscreet" and a violation of the constitution.

Representative Charles Plumley (Republican, Vermont), said he was "astounded" when he saw a picture of Admiral Richardson, commander-in-chief of the United States fleet, in a national magazine with King George's photograph beside him.

The congressman said Admiral Richardson informed him the photograph was presented to him by King George at Hyde Park, N.Y., President Roosevelt's home, when Richardson was serving as a naval aide.

Although men, many thousands of years ago, hammered meteoric iron into tools and weapons, it was only a little more than 100 years ago that scientists admitted there was such a thing as a meteorite.

With feline stealth the Highlanders wriggled along on their stomachs or back-crawled on their hands and knees reconnoitering enemy trenches, capturing outposts, seeking information on the enemy's strength.

The enemy of course were men of the 48th. But they were posted secretly and it was up to the patrol to find them in the baffling black-out.

Lieut-Colonel E. W. Haldenby is giving the 48th a heavy dose of night work and the men love it. It may sound like a glorified game of hide-and-seek, but there is competition in it and it is training that teaches a man how to keep his skin whole in combat.

The present phase of activity on the Western Front is largely night work and reconnoitering. Colonel Haldenby said, "Our Canadian soldiers must be able to do it."

So essential is the need for stealth in such work that some of the Highlanders snaked only 500 yards in the two hours the exercise lasted.

Then they swung home behind their pipes to a hot meal and welcome bunk.

## PARITY WHEAT PRICES URGED BY HERRIDGE

Prosperity Of Producer In Western Canada Primary Problem

PRINCE ALBERT, Sask., March 8.—Parity wheat prices for Western Canada farmers, even if the government has to make up the difference, was advocated here last night by W. D. Herridge, New Democracy leader.

"The prosperity of the primary producer of western Canada," he declared, "is the foundation on which alone we can build an economy for our whole people. If we cannot give the farmer a decent standard of living, then, as a people, we are through."

### ANSWERS QUESTIONS

Asked during the question period which followed his speech if he was prepared to co-operate with Conservative Leader Macdonald in formation of a National Government, Mr. Herridge said: "Anybody who believes first in the defects of the Liberal government and the remedying of conditions which prevent reform and the giving of security to the people, anyone who believes in reform and the principles for which I stand, I will welcome in association with myself."

Laurens-fair is "sheer lunatic dishing," Mr. Herridge declared. "This Dominion of Canada of ours is not the point of view of social and economic conditions, the most incompetent state in the world today."

Government not able to look after its people in peace time most assuredly is not able to look after its people in war time.

Went and destitution, under inaction, social and economic, are what past governments have given Canada. The government has shown that the people are not the master; it is not the servant of the men and women of Canada, but it is in the shackles of international finance.

Mr. Herridge urged Canadians to unite to banish Liberal forces of reaction and substitute an economy of plenty for one of scarcity.

### PEOPLE UNITING

The present crisis is bringing about a miracle for the people of Canada are uniting in a spirit of confidence and mutual trust in order to achieve what the government has desired the nation.

Mr. Herridge advocated a new deal for Canadians, to break the domination of international finance which, he charged, is throttling the productive capacity of the country. He would like to see a new deal on an economy designed to support production at its maximum level by a fair trade system, controlled by the state which would permit the farmer by creating adequate buying power.

TELLS PROPOSALS

His plan included a parity wheat price, for all wheat produced, even if the government has to make up the difference; a change in the tariff system which would prevent the export of Canadian goods to other countries and clear the channels of export trade for Canada; and government regulation and supervision to maintain a proper relation between prices, costs and production; crop insurance; expansion of employment to assure a job for everyone; and a plan who wants to work and adequate rest relief.

## LIBERAL PARTY MOST CAPABLE OF LEADERSHIP

SYDNEY, N.S., March 8.—The Mackenzie King government is "more capable of giving united leadership to the country than any other," Hon. J. L. Hiley, minister of agriculture, declared in a speech in addresses here and at North Sydney, across the harbor from Sydney.

Only time in the election campaign, the minister said, is "when government will be entrusted with the all-important task of carrying on successful prosecution of the war in the next few years."

Reviewing events leading up to the election call, he declared the "appeal to the country was prompted by the Ontario legislature resolution of censure, jointly subscribed to by the premier of that province and its opposition leader."

Despite what he called "irresponsible and irresponsible statements of Premier Humeau," Mr. Hiley said "present signs point to an increase of Liberal seats in the province of Ontario this election."

## 302 Miners Killed As Explosion Rocks Chilean Coal Mine

CORONEL, Chile, March 8.—Three hundred and two miners were believed killed and 98 injured yesterday in a coal dump explosion at the Schwager mine here.

Five hundred men were working in the pit at the time of the explosion. At a late hour last night, mine officials said 100 had escaped unharmed, 60 were brought to the surface with injuries and 800 were believed dead.

Ruined aqueduct fought flames 300 feet below the surface.

Property damage was estimated at about \$250,000.

**Australian Oil**

MELBOURNE, March 8.—The federal government is soliciting oil industry advisers to assist the search for oil.

## First Lord Happy To Oblige Naval Heroes

Salvors from the Exeter and Ajax beseiged their boss, First Lord of the Admiralty Winston Churchill for autographs during the welcome home celebrations given them in London upon their return to England, after having driven the German pocket battleship Graf Spee to "suicide" into Montevideo harbor.

## KIDNAP PLOT AGAINST FILM STAR BUNGLED

HOLLYWOOD, March 8.—A carjacking-bungled plot to kidnap Judy Garland, 17-year-old singing star of the films, left a 15-year-old transient from Buffalo, N.Y., in jail today.

Officers said Robert Wilson planned, with an accomplice, the midnight abduction, then new member and telephone police that "kidnaped tonight" the waiting which led to his own arrest.

Mr. Wilson was taken into custody on a charge of kidnapping. A search for his companion was under way.

Captain Grover Armstrong said Wilson told him that after watching the actress, he had planned for two days and learned that the servants would be off duty Thursday night, and a friend decided to meet at midnight and break into the house, becoming frightened.

Wilson telephoned police from a Santa Monica hotel.

Police traced the call, and a hotel employee gave such an accurate description of Wilson that the youth was arrested in a block away.

## FAITHFUL DOGS SAVE LIFE OF EAST TRAPPER

ARMSTRONG, Ont., March 8.—Led Ladoucheur, 200-pound French-canoe trapper yesterday gave credit for saving his life to his two faithful Alaskan sled-dogs.

Living in his home here recovering from a severe head wound Ladoucheur described how, two weeks ago, his dogs barked in a suspicious way about his trail to medical aid.

While hunting wolves north of Armstrong, 400 miles east of Windsor, on the Canadian National Railway main line, he said his gun accidentally discharged, killing the wolves and sending him away and rendering him unconscious after he had tied himself to the sleds and headed the dogs homeward.

## TCA PILOT'S PROMPT ACTION AVOIDS CRASH

LETHBRIDGE, Alta., March 8.—Emergency work on a damaged landing gear, several minutes before a Trans-Canada Airlines eastbound plane landed safely here this morning saved the crew and three passengers from serious injury.

Captain Ed. Twiss radioed the tower a few minutes after he had lifted the ship and noted her low-winged wings that the gear had stuck when partly retracted.

While ambulances and police cars rushed to the airport, called by airport manager V. Weir, Captain Twiss used an emergency pump, got the wheels lowered again, and brought the machine down in a smooth landing at about 12:30 a.m. before a handful of spectators.

## Wanted: Soviet Sympathizer, But Nobody Applies

WELLFLEET, Mass., March 8.—The board of trade is advertising for a "Russian sympathizer" willing and able to state the Russian situation in the present conflict with Finland.

He is wanted for a discussion at the board's next meeting.

The board's offer: "Dinner and protection guaranteed."

There were no applicants so far.

## TORY LEADER RAPS DEFENCE HEAD ROGERS

Local Administration Of Harbors Proposed By Hon. R. J. Manion

By Canadian Press Staff Writer. SAINT JOHN, N.B., March 8.—Merv local administration of Canada's national harbors, instead of the present system of "remote control" was proposed here last night by Conservative Leader Manion.

At the same time, the Conservative chief, vigorously attacked Defence Minister Rogers, who has been neglecting the Maritime provinces this week.

### CLAIMS NEGLECT

Dr. Manion charged that Mr. Rogers had "intentionally misled" the people of Canada in his unemployment statistics when he was Minister of Labor and now was "abusing in-chief" for the King government.

Dr. Manion agreed that the present system of centralized administration of national harbors requires modification, although co-ordinated development of harbor policy and the principles of co-ordination were desirable features. Accordingly, he proposed a new system.

### MANION PROPOSALS

"To retain a national harbor board as a general supervisory body, to coordinate national harbor policy, to establish local, voluntary harbor boards autonomous for all purposes, composed of well-qualified local business and community leaders, to permit local control of the competitive aspects of port management and would enable the ports to secure much business which they are now losing."

The government would assist in every possible way the encouragement of shipment of Canadian products abroad through Canadian ports.

Dr. Manion explained that when an election had been expected months before the war started, he prepared a manifesto, in which he had included this proposal for modification of the present central harbor control.

Dr. Manion repeated his charges that the first division of Canadian troops in this war went overseas lacking modern equipment.

"I have made no statements about these nations which cannot be proved before a proper tribunal," Dr. Manion said. The Conservative leader stressed his criticism of the administration's handling of Canada's war effort and described the aim of the national government's proposals forming in deal with the war and post-war problems.

## Goosestep's High

Following the wedding of the Rome-Berlin axis in 1938, the German goosestep became popular in the Italian army and as shown by this picture, taken in Rome this month, the goosestep is still in use in Italy. These troops, the personal bodyguard of Il Duce, were preparing to march high as they passed Premier Mussolini on the occasion of the 12th anniversary of the founding of Mussolini's dictatorship.

## Another "Lawrence Of Arabia" Will Foil An Attempted Revolt

LONDON, March 8.—Reuters News Agency, in a dispatch from Amman, Trans-Jordan, said last night that a new "Lawrence of Arabia" is leading a desert patrol of the Arab legion and will defeat any efforts of Germany to create an Arab revolt in the Near East.

The correspondence said that if the war moves to the Near East Britain will be in a far stronger position than the Turks were in the last war. The new Lawrence is an Englishman, said the Reuters agency staff.

Civilian trucks and humble trailers travel for days from remote desert towns to law their respects to this slight unassuming man whose word is law over the desert and whose name is a legend.

He has a reputation as a great fighter, when he co-ordinated the Iraq and Bedouin tribes in 1918 and personally led them into battle against marauding bands of raiders from Saudi Arabia.

## Industrial Peace For Nova Scotia Asked By Premier

HALIFAX, March 8.—Premier Angus I. Macdonald made a plea for "industrial peace" in Nova Scotia yesterday.

He continued the debate on the speech from the throne in the provincial legislature yesterday, the efforts of the province's newly-created ministry of industry to induce capital to come to Nova Scotia were vain unless there was some "industrial peace."

## Not an Accident . . . but an Achievement

The REALITY of Canada's unity in this day of great national effort is a source of dismay to our enemy — and a factor of strength to ourselves and to our Allies . . . What Canadians should realize most fully is that their national unity does not exist through accident . . . It is the direct consequence of successful years by an experienced and nationally-minded federal government . . . During the past five years the peacetime policies of the Mackenzie King Government — with respect to both domestic and external affairs — have been designed and executed with foresight in view — the strengthening of Canada's bonds of nationhood . . . Because those policies were sound; because they increased the measure of contentment throughout Canada; because they avoided clashes between provinces and races and creeds; because they were equally considerate of agriculture, industry and labour . . . because those policies have been truly national in scope, Canada is today putting forth a great, united, national war effort.

These are the sort of things which have contributed to unifying our nation . . .

**A Program of Trade Treaties** — lowering Canada's tariff barriers and opening new market opportunities for citizens of every province achieved by the Liberal administration in spite of the opposition of Conservatives, and the indifference of C.C.F. and Social Credit.

**Development of the Trans-Canada Airways** — bringing the people of East and West into overnight contact . . . created by the Mackenzie King Government from the ashes of the first airway attempt — abrogated by the Conservatives.

**Support for the Canadian National Railways System** — Liberals have been steadfast in standing behind this great national enterprise of the Canadian people . . . while Conservatives have worked assiduously for destruction of the system.

**A National Agricultural Policy** — a new conception of federal encouragement for the farm families of every province.

**Publicly Owned Central Bank** — the Bank of Canada, focal point of our national financial problems, was changed to public ownership by the Mackenzie King Government . . . reversing the Conservative policy of a central bank owned by private stockholders.

**Co-operative Action on Unemployment Problem** — the Mackenzie King Government has co-operated willingly and continuously with the provincial governments in efforts to overcome the unemployment problem . . . the Conservative policy

On March 26th show your faith in Canadian Unity. Vote for the candidate supporting Mackenzie King and make sure there can be no break in Canada's steadfast stand.

This advertisement is published by the National Liberal Federation of Canada, Ottawa, Ontario. Printed by The Edmonton Bulletin, Edmonton.

## Attractive Appearance Is Difficult To Copy

### Dorothy Dix Says:

A young woman writes asking if I will give her a formula for attractiveness. Why, my dear child, there is no more regular cut-and-dried follow-the-recipe-and-you-cannot-fail recipe for acquiring attractiveness than there is for making a sponge cake.

It is purely a matter of taste, for the very attributes that draw some of us toward an individual repulse others.

Some worship the tall, stately, goddess type of woman. Others prefer the pocket Venus. Some adore the roly-poly girl. Others will look at nothing but a living skeleton. As I have said, there are no plans and specifications that allow work for making a charmer, but I will give a recipe for attractiveness I should say.

Take all the good looks, natural and artificial, upon which you can take your hand. Beauty is not absolutely necessary in a woman, but it is undesirable that ugliness is a great help.

Having then secured an adequate supply of good looks by hook or by crook, if nature did not give them for you, see that they are carefully cleaned. Do not spare soap and water and grease for nothing. The more attractive in a woman than for her to appear spick-and-span.

Next take a moderate amount of brain—no more than the average brainless man than they are a ravishing lion. But, on the other hand, a certain amount of brains is absolutely necessary to attractiveness. They are the yeast in personality that makes it real and keeps it from being flat and heavy.

Put in a pinch of the salt of humor. Nothing is so flat and tasteless as a woman who never can see the point of a story and who has to have every joke diagrammed for her.

Use plenty of the sugar of amiability. The beauty, the wit, the fire, the heart, the charm for all that, but it is the woman who is sweet and gentle and lovely who has the last word in attractiveness.

Next read the new books and the current papers and the magazine and take that may be an interesting interest instead of a dull one. Know how to play a good game of bridge and golf and tennis, how to swim and how to dance. So that you will be an asset to any group.

Finally, season these other at-

By ALICIA HART

"You don't look like anybody else I've ever seen," Dorothy Lamour told me.

"It's always," I said, "been afraid of that."

"No, feminine individuality is as rare in civilized people as a satyr," she smiled, grinning at the camera. "The Most Beautiful Body in the World" is a book that she has written. It is a book that would be more attractive to the average woman than the average movie actress.

"It's one thing to admire some feminine celebrity, but to take her type—unless you are a genius—would be like trying to imitate her. You would be likely to look like a caricature of her."

Lamour observed that it is through an arch of slender-length nose, Miss Lamour's thick, glossy, curly black hair should be heavy, modernized figure 8 on the nape of her neck. She is slender, but not painfully thin—stunningly proportioned, dark-eyed.

AVOID PLAYING "A TYPED" ROLE. "A woman should be the finest possible edition of herself," continues the Stinging literary of the new picture "Typhoon." She should avoid being typed.

The young picture stars should not try to look like all other picture stars. They should be themselves. If a child runs into trouble or is hurt, it is better to:

A—Sympathize with him? B—Blame it on bad luck or somebody else? C—Take it for granted and not get excited?

D—Laugh it off and pretend we don't care? I want I asked myself easier questions than the ones I put out of the barrel of my pen. The answer is always a puer. If I say to myself, "I am a fool," I am a fool. If I say to myself, "I am a fool," I am a fool.

travelling with pop to taste. Make it spicy, but not too hot. Be neither a pitter nor a prunes-and-prunes.

So then here is my recipe for attractiveness: To good looks and pretty clothes add intelligence. Season the rest of your outfit with a dash of popika of modern ways and serve in a modern manner.

DOROTHY DIX

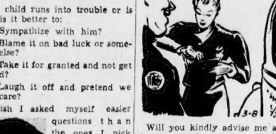

## They're Headed For Spring

These spring hats are smart for town or country. The flatter model at left has a medium brim which sweeps downward at the front and a draped crown stitched with wool. The other, right, is a charming Breton sailor in felt with contrasting program band.

## Raising A Family

What To Do

If a child runs into trouble or is hurt, it is better to: A—Sympathize with him? B—Blame it on bad luck or somebody else? C—Take it for granted and not get excited? D—Laugh it off and pretend we don't care?

I want I asked myself easier questions than the ones I put out of the barrel of my pen. The answer is always a puer. If I say to myself, "I am a fool," I am a fool. If I say to myself, "I am a fool," I am a fool.

## "Idaho Meal Time Is Big Potato"

By MRS. GAYNOR MADDOCK  
Even vegetables have their Sunday clothes. Take them to Idaho meal time, for example.

**IDaho MEAL TICKET**  
Choose large russet baking potatoes. Bake in a hot oven 400 degrees F. for 30 minutes. Cut off the top, scoop them out, mix the potatoes, adding butter, salt and hot milk or cream. Fill the potato shells with creamed onion, peas, shrimp, or anything you please. Over this place a layer of a cooked vegetable—peas, carrots, asparagus or what you wish. Then the well-seasoned mashed potato in a mountain to top the whole. A small potato will serve two people in a moderate oven 350 degrees F. to heat through and to brown.

**TURKEY NEWBORN**  
Six white turnip peeled and sliced, 3 tablespoons lemon juice, 2 tablespoons flour, salt, pepper, minced parsley, olive, 2 hard-boiled eggs, 1/2 cup hot milk, paprika, 1 teaspoon finely chopped pimento.

Cook the turnips in salted boiling water until tender with 2 teaspoons of the lemon juice added. Drain and cool. Make the egg yolks and mix well with the flour. Blend gradually with the milk and cook in double boiler until thick. Season with salt, pepper and paprika. Add the turnips to the sauce and combine with the olive or parsley and the pimento. Simmer for a few minutes then add 1 teaspoon of the lemon juice and serve.

**CURRY BUTTER FOR VEG**  
One-quarter cup butter, 1-2 teaspoon curry powder, dash of pepper, dash of paprika.

Cream butter, add remaining ingredients and beat until fluffy. Store in refrigerator in covered glass jar until ready to use. Re-cream before using. Substitute for butter in making egg salad, tomato and lettuce or mixed spring vegetable salad. Makes 1 cup butter.

**Tomorrow's Menu**  
BREAKFAST: Compote of fresh fruit, minced ham omelet, buttered toast, tart jelly, coffee, milk.

LUNCHEON: Roast chicken, herb stuffing, brown gravy, new potatoes, cauliflower with curly-broccoli lettuce salad, choice blue omelette pie, coffee, milk.

SUPPER: Tongue, apple and celery salad, toasted milk, ribbon cake, tea, cocoa.

South West North East  
3-2-1 Pass 3-2-1 Pass  
Opening—5-4-3-2-1

James V. Mulholland, director of recreation of New York City park department, has said, "In today's highly mechanized society, early playing can be an invaluable safety valve. There is no question that camps offer inexpensive relaxation and recreation, and their benefits are a blessing in these high-tension times."

The Chinese must have anticipated our attitude some eight centuries ago. In ancient Chinese books there were five cards called "The Five Blessings," each bearing the picture of a related, gentle little man, apparently depicting the atmosphere of calm which the wise Orientals aspired to surround themselves.

In today's hand West opened a short suit. East won with the king of spades, returning the 10-9-8-7-6-5-4-3-2-1. Dummy won with the ace of clubs. South won with the queen and played a small club. West played his blank king and now declared had to decide whether to play low or high.

Correctly reasoning that West had been from a short spade suit, he played low, and West was on the spot. He led a spade, declarer won with the king, and the game was over. West was squeezed and declarer made four-odd.

**Minute Make-Ups**

Chapped and roughened hands will benefit by an application of the same make-up used for your face. Cover the hands with the cream and allow it to remain ten or fifteen minutes. Remove with facial tissues, wash and apply a regular hand lotion. Notice how soft and smooth they feel.

**Design No. X360—HOT PLATE MAT AND POT HOLDER**  
The crocheted mat is serviceable as well as attractive. The accompanying holder is ideal and easily made.

Pattern No. X360 contains list of materials needed and complete instructions for making both the mat and holder.

To order this pattern, give your name and address on a piece of paper and send with 15 cents in coin to Needlework Department, The Edmonton Bulletin, Edmonton, Alberta.

**Animal Crackers**

It was awful—all I got was catcalls!

en Season Is Granted  
Beaver Trapping In North Alberta Section

How do I love thee? Let me count the ways.

Those lovely lines from Elizabeth Barrett Browning's "Sonnet" which delight to come upon their eyes again.

Indeed, all your favorite poems have a special meaning just for you.

Another reason for declaring an open season is that many trappers and writers living in the far north are in precarious circumstances now dependent on the fur catch of their living.

News begins as a fluid stream beneath the body's body and flows into a plastic consistency every month.

I.O.D.E. Units  
Are Busy With  
War WorkOther Enterprises Are  
Kept Going Also In  
Wartime

WAR assistance work in which members of the various Edmonton I.O.D.E. units have been extensively engaged during the past few months has not precluded work in the many other avenues in the I.O.D.E. program of welfare and philanthropic endeavor, but has rather been accepted as an added responsibility and as an additional evidence of their territory.

Recent meeting of chapters gave evidence of the emphasis placed on war work and the efforts that are being made to keep their customary work programs in smooth running order.

**EARL OF ST. ANDREW'S**  
Meeting at the home of Mrs. A. S. Kerr on Wednesday evening this week, Earl of St. Andrew's chapter members heard a very report on war work accomplished by the chapter, Mrs. Kerr, president, reporting that the chapter has been successful in collecting \$1,300 for the war effort.

Members are also busy with knitting and have collected \$1,300 for the war effort. The chapter is also busy with the collection of money for the war effort.

The chapter is also busy with the collection of money for the war effort. The chapter is also busy with the collection of money for the war effort.

# C. O. T. C. Inspection In City on Saturday: Take Exams March 17

Through The Mill

Now we know why grocers shouldn't give away on Sunday. The reason is that they can make money at it. For example, last Sunday a grocer, who sold a penny butter in each cent worth of sugar, cake, bread and meat, because the grocer was starving and didn't like to see him starve with his having all that stock of groceries lying around in the shelves and not paying one cent for shelter. But the grocers caught the guy as he walked out of the store with his lunch in his pocket. So they summoned the grocery store, he didn't come but he came to collect court fines and pleaded guilty to a charge of breaking the Lord's Day Act. For which the court ordered him to pay a fine of \$5 and \$25 cents, which represents a loss of \$25 on 10 cents worth of business. It is much cheaper—especially with the big nickels—than to shut the store for the day on Sunday.

## Editor Speaks Here

Owen Littlejohn, editor of the famous United States periodical on affairs in the Far East, "Pacific Affairs," and at present Walter Hines Zinn, lecturer in international affairs at Johns Hopkins University in Baltimore, came to the city Friday morning to address a meeting of the Edmonton branch of the Canadian Institute of International Affairs, Friday at 8 p.m. at the Macdonald hotel.

## Text Aberhart's Speech

Below is the complete text of an address delivered by Premier William Aberhart in this city Thursday night at the annual election campaign which will conclude with voting on March 21.

People of Alberta, I have just to define action. I have just to define a word of the province. Ever since I went I found one people rising right loyally to the occasion—just as they did in the most difficult and arduous of the province, their fierce determination to go forward with the great crusade for social justice and their loyal support for the cause. These have been a wonderful and encouraging to me and a source of real inspiration to me and I am grateful from the bottom of my heart.

## STAY WITH FIGHT

I have come back more determined than ever that so long as the people of Alberta desire me to do so, and so long as I retain health and vigor, I shall stay with this fight for economic freedom until we have won through to the end and I shall stay with this fight for economic freedom until we have won through to the end and I shall stay with this fight for economic freedom until we have won through to the end.

## HURRIED MEETING

They followed a hurried meeting of the Independents. The purpose of the meeting was to discuss the time of action. The time of action was set for Friday at 8 p.m. at the Macdonald hotel.

## ROADS IMPROVED

The first highways the province had ever known began to appear. Roads were improved and expanded in education, in health, in protective legislation for workers and in progressive agricultural policies. Aberhart assumed the time for action was set for Friday at 8 p.m. at the Macdonald hotel.

## IMMEDIATELY ALBERTA INDUSTRIES

view to expand and unemployment to decrease. Marketing was given enabled farmers to secure machine parts at prices which were lower than those of the province. The Interim Program was developed.

## OTHER PROVINCES BEGIN TO ADOPT

other policies. It is not natural that our own people, who have seen the results of this progress, have gained an unshakable conviction that we are on the right path. But still the financial interests continued their efforts to keep the people back from the progress. They refused to finance building in the province. They continued to restrict credit—they refused their activity. They refused to give with whispering campaign, misrepresentation, falsification and slander. They organized labor and got-together societies and 13,000 clubs.

## At That's Left Of Their Home

With the coming of spring, army soldiers at the University will have a short break in the next few weeks. Saturday afternoon the C.O.T.C. contingent will parade at the Prince of Wales Armouries for their annual inspection by C.E. Connolly, D.S.O., officer commanding M.D. 13. Following the inspection, the cadets will have a week's respite and on Sunday, March 17 they will write the second part of their C.A.S.F. examinations. Put through a rigorous course of training since last fall, members in the neighborhood of 300 of the men will present themselves for these final examinations. Should they pass and should their work at the spring camp be satisfactory they will be ready to take their places among Canada's fighting troops.

Since Christmas the cadets have been divided into the various specialties and they will write the Special Arms papers in the various courses, infantry, artillery, engineering, signals and medical. Following lectures delivered by several officers of the unit, the cadets spend time on the "sand" where they will receive instruction where they work out schemes of attack and defense and apply in a practical manner the theoretical knowledge they receive from the lectures.

Following the examinations on March 17 the activities of the unit will continue while students receive the barrowing business of passing final exams, and on Sunday, March 18, the whole unit will go to camp where the practical side of their training will be put into effect.

## COULD NOT HIDE

But in their hurry to change their minds they forgot that the people were still waiting and searching for their words in getting behind in the provincial field they could not hide. They could not hide.

## UNDERPAID, OVERWORKED

You who were underpaid and overworked have received the promise of minimum wages and hours of work. What a mess! You have done our utmost to reform the inadequate conditions which existed. Have we not done all we could in a constitutional and orderly manner to force the issue with the financial powers to gain democratic freedom and economic justice for you? Have we not justified the issues we raised in this to expose the financial racket?

## NO PARTY QUESTION

This is not a party question. It is a question, I assure you, of whether you want democratic government to be plotted out in our province because that is just what we want. The parties are irrelevant to you.

## BLACK TICKET

The Independents are inviting you to think of a government that will not be a party government. They are inviting you to think of a government that will not be a party government. They are inviting you to think of a government that will not be a party government.

## RECEIVED PROTECTION

You have received protection from the mortgage and loan institutions. You have received protection from the mortgage and loan institutions. You have received protection from the mortgage and loan institutions.

## WELSHMAN PASSES

Funeral service for David Thomas Glitters, 48, of Edmonton, Alta., will be held at 2 p.m. at the funeral home of Howard & McElroy, 1001, 10th St. North, N.W.

## INJURED IN AN ACCIDENT AT FOOT

Howard & McElroy, 1001, 10th St. North, N.W. Injured in an accident at Foot Hill, Collierie about 27 months ago, Howard & McElroy, 1001, 10th St. North, N.W. Injured in an accident at Foot Hill, Collierie about 27 months ago, Howard & McElroy, 1001, 10th St. North, N.W.

## 'Homebody'

Seldom active in public life, Mr. Thomas E. Dewey is pictured as he attended the recent Republican "Crash Course" dinner at Albany, N.Y. Commended for "keeping the home fires burning" while her husband became a national figure, she took a bow.

# Fighting With The Finns—More Exclusive Pictures

## Prelude To Battle

Cowed Finns of headquarters staff plan war strategy as they make observations from well-protected post in the snow-covered woods near Salla. This preliminary work, pictured by Eric Colcraft, is to guide troops in battle with invading Russians.

## Troops On the Front Line Await Attack Orders

Finland's men in white establish a battle line in snow-covered ditches along the Salla front and await attack orders from headquarters staff. Note soldier, lower left, fixing bayonet for hand conflict because of shortage of ammunition. Exclusive picture was taken on the actual Finnish front line by Eric Colcraft. Bulletin staff photographer accompanying troops into battle on the northern snows.

## Aftermath Of Battle

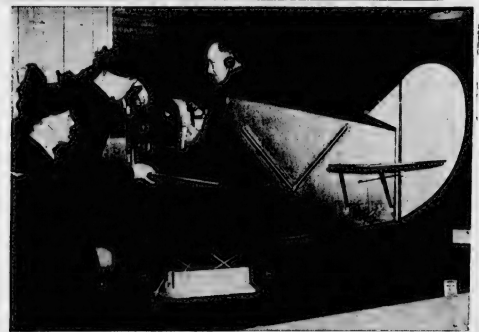

Shovels in the snow of a Finnish cemetery await the coming of war dead. After the battle, soldiers still give grave curators in the gray soil and deposit their own and enemy dead in the last refuge from the guns of war.

## 'Coldest Winter in 100 Years'

Even the oldest inhabitant of Schaffhausen, Switzerland, could not remember when the famed Schaffhausen Falls on the Rhine river had been so heavily covered with ice as they appear above. Europe's recent "coldest weather in 100 years" froze the castrate.

## Link Trainers Being Built for R.A.F.

A million-and-a-half dollars are being spent in the little Ontario town of Gananoque to build planes that will never fly. The money is being spent by the British air ministry on 200 Link trainers, the stubby, motorless "planes" used to teach young pilots of the Royal Air Force the intricate problems of piloting the modern fighting planes of the R.A.F.

## Off to Bomb Reich—With Leaflets

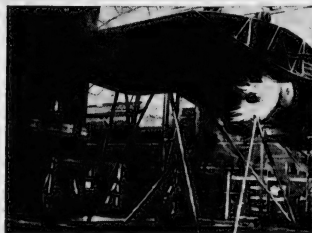

Members of the British Royal Air Force are shown loading up a giant bombing plane with propaganda leaflets just before the start of a reconnaissance flight over Germany. On this occasion the bombers went as far as Vienna, Austria, and Prague, Czech-Slovakia. The leaflets were broadcast over these capitals of formerly independent nations. All the British planes returned safely to their base.

## Airman's Wife Gets News Inside a Guardian of British Shipping

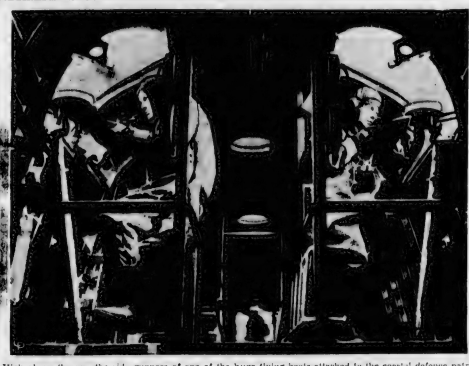

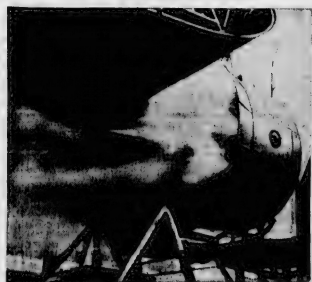

Surrounded by chorus girls in a Philadelphia theatre where she recently appeared, Mrs. Edith Rogers Dahl, center, reads the news of release of her husband, Harold E. Dahl of Champaign, Ill., from Spanish prison. Dahl, an American volunteer in Spanish war, was sentenced to death after his plane was shot down by Nationalists in 1937. He was spared when Mrs. Dahl sent General Franco a plea and enclosed her picture.

## Fire for Safety's Sake

Civil Aeronautics Authority recently conducted extensive fire control tests for airplane motors. Tests were made under flying conditions: motors running in high wind (supplied by wind tunnel). Photo above shows oil fire in motor at its height. Ingenious light device notifies pilot of fire. He manipulates extinguisher—liquid gas under pressure—supplied to affected area through tubes. Below, smoke pours from engine after gas has doused fire successfully.

High above the sea, the side gunners of one of the huge flying boats attached in the coastal defense patrol of the Royal Air Force, are pictured at their positions keeping a ceaseless watch for the appearance of enemy U-boats or planes. The flying boats of the coastal command have equipped a special unit in their task of watching over British shipping since the war began and not one ship has been lost in a convoy under their care. The big Sunderland four-engined flying boats patrol the convoys when they are still far from British shores and during their constant watch, the wheels of a fast-acting and accurate attack of a hundred U-boats.

## They Get Real Welcome

Despite the extreme cold weather which fared them on arrival, it was a real warm welcome the Finns got the Canadians. This photo, passed by the censors, shows a group of volunteers chatting with two Finnish girls. The Canadians made a big hit with the Finns.

## "Parked" in Mid-Air

Called a "flying motorcycle" but looking, and acting, more like the "darning-needle" that hovers over stadiums is this new 420-horsepower plane, pictured in U.S. army test at San Diego, Cal. It takes off in only 30 feet at high speed, ascends almost vertically, and can hover practically motionless in mid-air. It descends as sharply as it takes off, stops almost instantly on landing.

# Looking Them Over

By Jack Kelly  
For Justice!  
Case for Pusie  
Grand Finale

Now there is a host of spring in the air and the cheering through the streets before the final game of the Pusie case. Pusie is a justice against a justice, Pusie is a justice against a justice.

It seems that there was a great multitude of justice and friendship in the Pusie case. Pusie is a justice against a justice, Pusie is a justice against a justice.

Now Pusie is a justice against a justice, Pusie is a justice against a justice. Pusie is a justice against a justice, Pusie is a justice against a justice.

## The Great Reformation

M. JEAN TUCKER, the patient Gus, eventually, visited me in my house. I told him that I was a justice against a justice, Pusie is a justice against a justice.

"From now on I will do just as Gus says," said M. Pusie. "If he tells me that I am to stop on the defense I will stop on the defense. Of course I will stop on the defense I will stop on the defense."

"It is true that in the past he has been a bit headstrong and impetuous but he has decided to reform and for the rest of the season he will do just as I say."

Those of us who were fortunate enough to journey to the Forum last night were privileged to witness an example of the splendid new relationship between M. Pusie and his manager. During the third round Bobby Rowe, the Forum manager, presented an extraordinary situation with Referee Cameron Proulx and, finally reaching the limits of his patience, leaned over the railing and asked Proulx on the chips.

M. Pusie was playing on the Vancouver defense when Rowe roughed the ref.

"Bare him! In fact, sit down!" M. Pusie muttered in amazement. "This is highly irregular. Rowe can not strike the referee because Rowe is not in position to receive the gift of a gift. It is playing for the St. Louis de la Habitation in the Quebec Dimanche. Main League there was a strict rule that nobody but players in uniform could attack the referee!"

"Hmmm!" mused M. Pusie, stroking his jaw. "Rowe is certainly attempting to infringe on the rights of the players. Pusie will fight."

And with no further ado M. Pusie strode over to the Forum bench, waving his handkerchief right at and toward Bobby Rowe. After a few moments, there was a loud explosion. Proulx, in an extraordinary act, aggressive attack on the constitutional rights of all hockey players.

## "Venez, Mon Petit Chou"

WELL, gentlemen, at this juncture the road fell all and after several minutes of thirty minutes pushing and shoving we saw M. Pusie, who was standing on the Forum bench, waving his handkerchief right at and toward Bobby Rowe. After a few moments, there was a loud explosion. Proulx, in an extraordinary act, aggressive attack on the constitutional rights of all hockey players.

M. Pusie, who was standing on the Forum bench, waving his handkerchief right at and toward Bobby Rowe. After a few moments, there was a loud explosion. Proulx, in an extraordinary act, aggressive attack on the constitutional rights of all hockey players.

## Boston Bruins Win 2-1 Over Shore-Led Amerks

NEW YORK, March 8.—The inspired play of Eddie Shore in action against his former teammates for the first time in his 14 years as a big league, wasn't enough Thursday night as Boston Bruins took undisputed possession of first place in the National Hockey League with a 2-1 victory over New York Americans. The Bruins skated away with a close but easy triumph before 12,500 fans.

The victory moved the Bruins into first place and still left Montreal Canadiens, also beaten last night, a mathematical chance of overhauling the Americans for the top place-off shot. To do so, they must win all their four remaining games while the Americans lose their four.

Montreal, Bruins' center, almost wrecked the American's defense. He picked up a loose puck, shot Bobby Bauer left 12 feet to shoot the first goal. He then scored his second goal in the third period. He made the play. The Bruins' victory gave Boston a 2-0 lead.

Hockey Smith, Boston man, told me that the Bruins' victory was the American's fall with the Bruins' victory. He made the play. The Bruins' victory gave Boston a 2-0 lead.

### Alberta Junior Hockey Final

At the Arena  
9:00 p.m.—SATURDAY—9:00 p.m.

EDMONTON VS. CALGARY

# UBERATE MANITOBA RINK WINS BRER

## New Block Letter Men Are Named

George Stuart Bill Heddad Stan Cameron Lloyd Wilson Jack Davis

The above men are those who will be the new block letter men for the 1939-40 season. They were named by the Men's Athletic Board.

Those winning this coveted honor are Lloyd Wilson, Doug Smith, Bud Chorney, Jack Neilson, Albert Dobson, and Bruce Macdonald. They were named by the Men's Athletic Board.

## Nine Men Are Awarded Top Honors In Sport at University of Alberta

NINE men were awarded major athletic honors at the University of Alberta on Thursday when the Men's Athletic Board announced acceptance of these athletes into the Big Block Letter Club, the honorary association of the university's most outstanding athletes which is the ultimate aim of every student who makes a place on the Golden Bear squads.

## FOUR MIDDLE MAT BATTLES FOR TONIGHT

Four middleweight bouts are being fought at the Edmonton Table Tennis Club and by Sunday night these championships will have been decided.

On Friday two matches are scheduled to be played in the junior division and the other in the senior. At 8 p.m. the Seneca Gored will meet the Woodmen in the first round. At 8:30 p.m. the Seneca Gored will meet the Woodmen in the first round. At 8:30 p.m. the Seneca Gored will meet the Woodmen in the first round.

## Lynn Patrick Is Daddy To Boy

NEW YORK, March 8.—A boy who was named Lynn Patrick is the son of Lynn Patrick, a hockey player. He was named after his father.

The boy is the son of Lynn Patrick, a hockey player. He was named after his father.

## Luscar Indians Edge Out 1-0 Win Against Canmore

CANMORE, March 8.—Five hundred fans turned out last night to see Luscar Indians come through for a 1-0 win against Canmore Brigantes in the first game of the Alberta intermediate finals. Series winner will travel to Vernon, B.C., to play the winner of the Vernon and West Kootenay intermediate finals, which series the Vernon club has almost clinched.

Despite a rough and poor start to the game, the Luscar Indians, who were led by their captain, Lynn Patrick, won the game 1-0. The game was played at the Canmore rink.

The game was played at the Canmore rink. The Luscar Indians won the game 1-0.

# WOODS' Crew Scores Nine Straight: Saskatchewan Second: Alberta Third

## How They Stand

WINNIPEG, March 8.—Manitoba won the Macdonald's Brier Canadian curling championship for the ninth time in 14 years when Howard Woods' Winnipeg rink completed a sweep of the 14th round, nine straight games by trimming Alberta's famous Cliff Manahan 17-11 in the final round.

## Kingpins

Manahan, Brier winner in 1933 and 37 and runner-up in 1938, led the veteran Nick Thibodeau of Banff, N.B., for third place with six wins each.

## Victory

Howard Woods' Winnipeg rink defeated the semi-finalists of the men's handball championship in the annual Empire golf tournament at the Victoria players and Lee, Seattle.

## Gymnastic Trials

The Canadian National gymnastic championships are to be held at the Winnipeg Y.M.C.A. on April 6, 7, 8, and 9.

## English Soccer

MILWAUKEE, Wis., March 8.—Milwaukee defeated Norwich City 3-1 in a postponed "B" soccer game played here Thursday.
